OUTSTANDING NEW PLANT PATENT TREES

— NATIONALLY ADVERTISED —

MORAINE LOCUST

(Plant Pat. No. 836)

Beautiful new thornless, seedless shade tree grows tall, encourages luxuriant lawn grass growth.

Exceptionally Fast Growth—No leaves to Rake—No thorns. No Seed Pods—Resistant to disease and insects.

Hard sturdy wood resists storm and ice damage—Tolerant of drouth and imperfect drainage.

Once established, the fast growing MORAINE LOCUST adds from 3 to 5 feet in a year. Under favorable conditions these trees reach 25 to 30 foot height within 7 years.

MORAINE LOCUST

MORAINE® ASH

(Plant Pat. No. 1768)

"Beauty in Symmetry"

A CLEAN, TIDY TREE that doesn't make you work: When the small olive-colored foliage falls, it sifts through the lawn easily to eliminate leaf raking. The Moraine Ash also features a smooth attractive bark on trunk and limbs that adds to its cleanliness and desirability.

HARDY, VIGOROUS: Tests prove the Moraine Ash prospers in climatic conditions throughout most of the United States, including Maine, Montana, and North Dakota. You enjoy its beauty later in Autumn than most ash trees.

BOYD'S BRIDGE ROAD
KNOXVILLE, TENNESSEE

October 15, 1961

Dear Fellow Nurserymen:

The Howell Nurseries, Inc., of Knoxville and Sweetwater, Tennessee, take great pleasure in announcing as co-distributor of our new "Sweetwater" Red Flowering Dogwood, the Boyd Nursery Company, of McMinnville, Tennessee.

The late Mr. Bruce Howell, a member of our firm and one of the original Howell Brothers, was one of the foremost authorities and breeders of Dogwoods in our section who started propogation to find a truly Red Flowering Dogwood in 1928 at Howell's Sweetwater firm. After producing several hundred plants he narrowed the trees to twelve selections. Before Mr. Howell could get the trees on the market he died in 1953, causing a delay in the production. Later the Boyd Nursery Company was contacted to help us with our propogation, and as the co-distributors it was decided to name the new dogwood "Sweetwater" where this truly Red Flowering Dogwood originated.

The "Sweetwater" Dogwood is a new strain of Red Flowering Dogwood that has not been offered before. It is the most superior of all the trees tested and is also the most disease resistant. It has the reddest foliage of any of the Red Dogwoods that we have ever grown and has the largest blooms. We recommend it as being the best of all the Red Flowering Dogwoods.

"Sweetwater" Dogwood is registered and patent pending.

The supply is still limited, and we suggest that you send your order as soon as possible to Howell Nurseries or to Boyd Nursery Company.

Yours very truly,

HOWELL NURSERIES, INC.

Gentlemen:

Today your Price List reached us and we are very much interested in the Dogwood on your cover "SWEETWATER."

We are always interested in new plants and wonder if you will send us 10 plants for planting up.

Many thanks beforehand.

HYDRANGEA BLUE, Blue Flowers

Both hardy and beautiful. The tops die down to the ground every winter, but give them a little mulch protection and the crowns will grow into bushy shrubs in one season, 2 to 4 feet tall with attractive, luxuriant foliage and great masses of flowers.

Because the flowers are borne on the new wood, you get blooms every year, and lots of them. It is not at all unusual to see flower heads more than a foot across and the shrub completely covered with them—a wonderful show.

In alkaline soil the flowers are pink; in acid they are blue. It's easy to change alkaline soil into acid with aluminum sulphate (two tablespoons to a gallon of water).
